NC STATE UNIVERSITY

Government agencies

State departments, local governments, and educational institutions can utilize the Department of Administration Motor Fleet Management's E85 fueling site on Blue Ridge Road in Raleigh.

State agencies, colleges, and universities may also refuel with E10 at all N.C. Department of Transportation sites throughout the state. These groups can also purchase E10 and E85 in all 100 counties through the state purchasing contract (www.doa.state.nc.us/PandC/fuelcost.htm). The N.C. Department of Transportation also has E85 refueling at sites in Asheboro, Charlotte, Durham, Greenville, and Marion.

For more information

- Learn more about biofuels at our website, www.cleantransportation.org.
- Find retailers nationwide with Growth Energy, www.e85refueling.com.
- Access a list of retailers from a mobile phone with NearE85, www.neare85.com.
- Locate alternative fuels with the Alternative Fuels Data Center, www.afdc.energy.gov.

This document is supported in part through the Clean Fuel Advanced Technology project with funding from the N.C. Department of Transportation.
